

$$2\frac{1}{4} \times 3\frac{2}{7} =$$

$$\frac{8}{10} - \frac{2}{3} =$$

$$100\frac{6}{8} - 12\frac{3}{6} =$$

$$\frac{400}{3} \times \frac{11}{50} =$$

$$2\frac{1}{6} : 2\frac{1}{2} =$$

$$4 \times \frac{1}{5} =$$

$$100\frac{5}{6} + 10\frac{1}{11} =$$

$$\frac{7}{4} : \frac{10}{4} =$$

$$2\frac{1}{4} \times 3\frac{2}{7} = \frac{9}{4} \times \frac{23}{7} = \frac{207}{28} = 7\frac{11}{28}$$

$$\frac{8}{10} - \frac{2}{3} = \frac{24}{30} - \frac{20}{30} = \frac{4}{30} = \frac{2}{15}$$

(Note: In the original image, the 2 in the numerator of the second fraction is crossed out and a 10 is written above it, and the 3 in the denominator is crossed out and a 3 is written below it, resulting in 20/30.)

$$100\frac{6}{8} - 12\frac{3}{6} = 100\frac{18}{24} - 12\frac{12}{24} = 88\frac{6}{24} = 88\frac{1}{4}$$

(Note: In the original image, the 6 in the numerator of the second fraction is crossed out and a 3 is written below it, and the 8 in the denominator is crossed out and a 4 is written below it, resulting in 12/24.)

$$\frac{400}{3} \times \frac{11}{50} = \frac{88}{3} = 29\frac{1}{3}$$

(Note: In the original image, the 400 in the numerator is crossed out and an 88 is written above it, and the 50 in the denominator is crossed out and a 5 is written below it.)

$$2\frac{1}{6} : 2\frac{1}{2} = \frac{13}{6} : \frac{5}{2} = \frac{13}{6} \times \frac{2}{5} = \frac{13}{15}$$

(Note: In the original image, the 6 in the denominator of the second fraction is crossed out and a 3 is written below it.)

$$4 \times \frac{1}{5} = \frac{4}{5}$$

$$100\frac{5}{6} + 10\frac{1}{11} = 100\frac{55}{66} + 10\frac{6}{66} = 110\frac{61}{66}$$

(Note: In the original image, the 1 in the numerator of the second fraction is crossed out and an 11 is written above it, and the 11 in the denominator is crossed out and a 6 is written below it, resulting in 6/66.)

$$\frac{7}{4} : \frac{10}{4} = \frac{7}{4} \times \frac{4}{10} = \frac{7}{10}$$

(Note: In the original image, the 4 in the denominator of the second fraction is crossed out and a 4 is written above it.)
